Tacky-Finger

MODERN FINGER TIP
MOISTENER MAKES
ALL PAPER HANDLING
FASTER

Evans Tacky-Finger is a hydroscopic material (it absorbs moisture from the air) which gives a harmless coating to the fingers. Its "grip" enables the user to handle papers with much greater speed and ease. Tacky-Finger is stainless, odorless, greaseless and colorless. It is easy to apply and easy to wash off. Vastly superior to unsanitary sponges or clumsy rubber finger guards. It is guaranteed to be non-irritating.

Tacky-Finger is indispensable for paper handling, counting money, sorting checks, dealing cards. It is used effectively in banks, printing plants and binderies . . . wherever speed in handling paper is important.

Tacky-Finger has also won many friends among golfers, bowlers, and tennis players. They are enthusiastic about the improved grip Tacky-Finger gives.

U-BOW DESK RACK

The Evans U-Bow Desk Rack is constructed of lightweight aluminum alloy. It is neat and trim . . . sturdy enough to support ledgers, catalogs and phone books with ease. It is an efficient desk organizer . . . both practical and attractive. It can be expanded to any reasonable size, or it can be closed and stored away in a desk drawer. When expanded, the angle of each section is offset from the other for clear viewing of the end of each section. The U-Bow Desk Rack can be made in as many sections as desired.

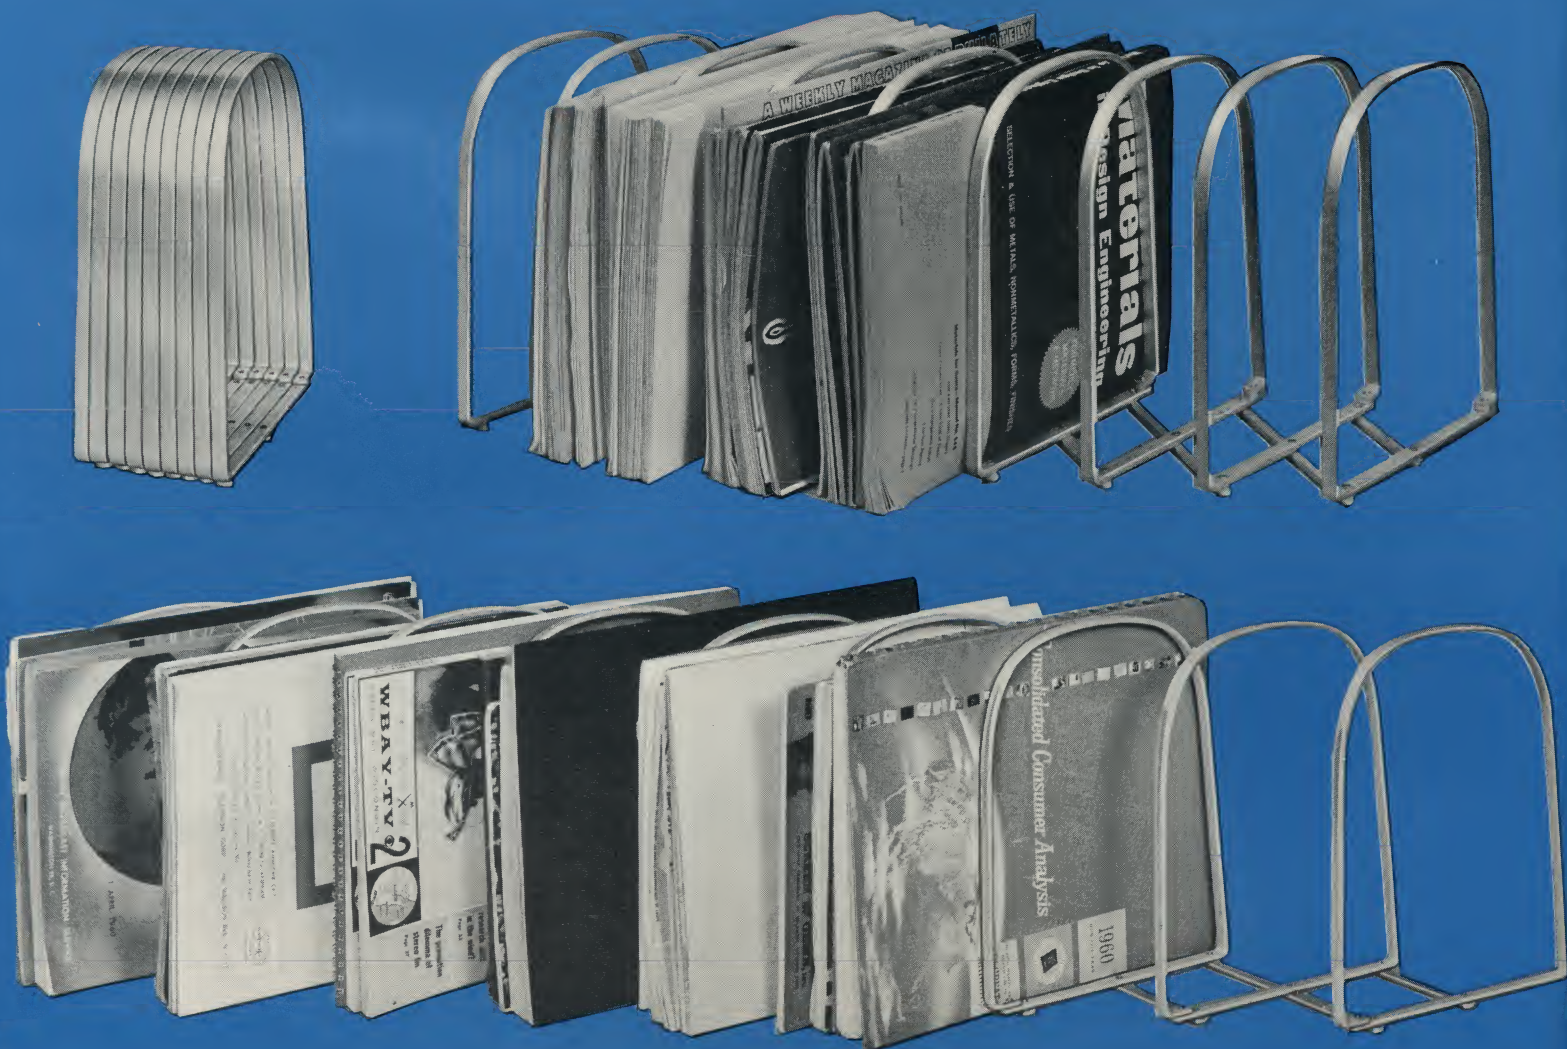

8-SECTION U-BOW DESK RACK.

CLOSED — 7" x 9" x 4" EXPANDED — 7" x 9" x 48"

Additional sections available

8-Section U-Bow \$7.95

Additional Sections \$1.00 each

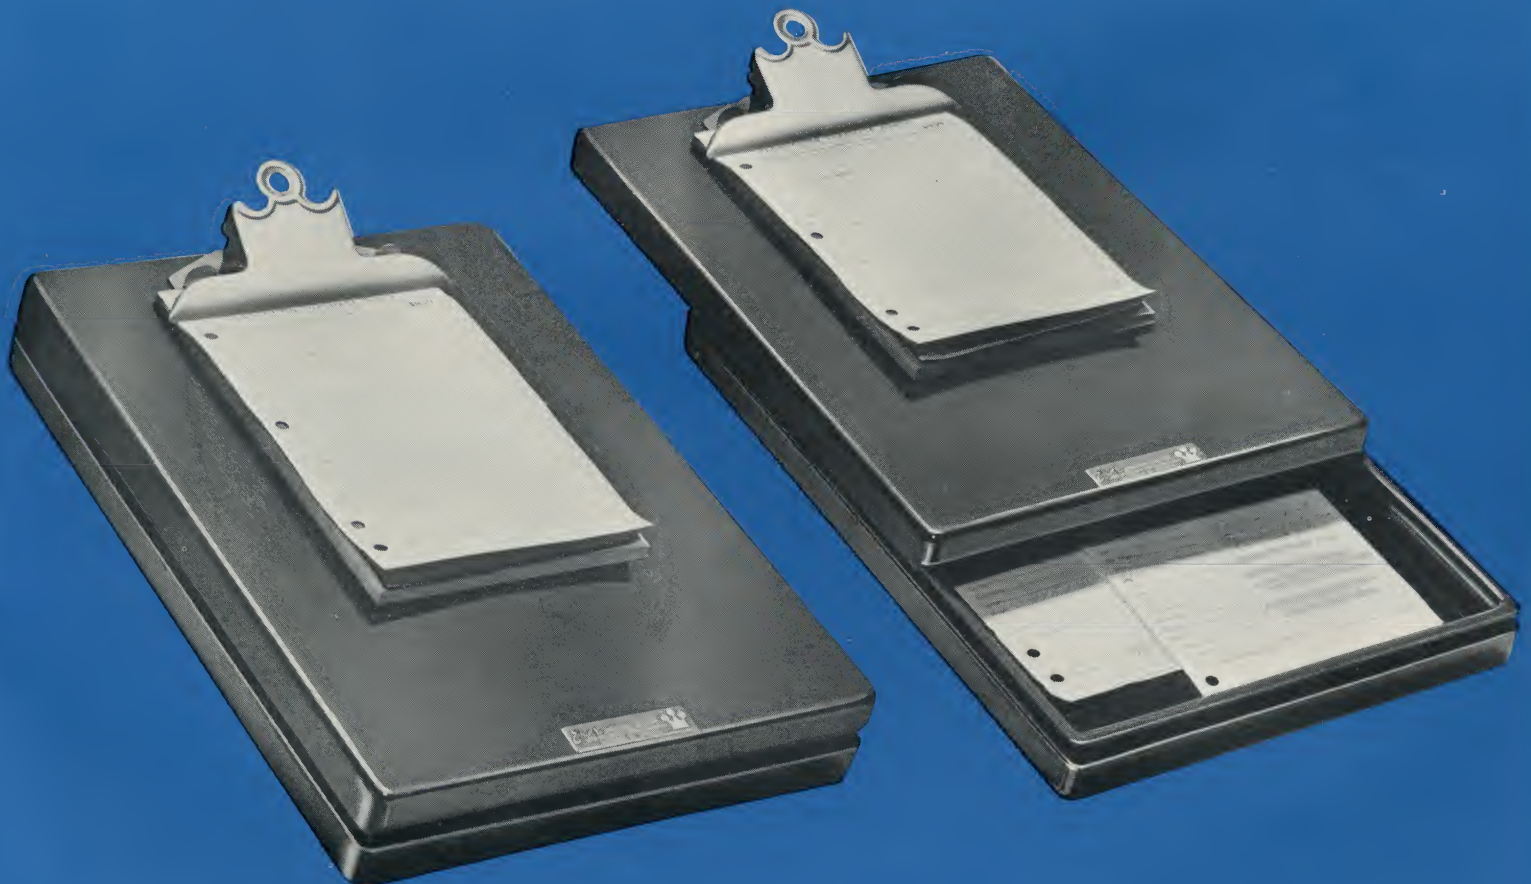

CLIP/DRAWER

The Clip-Drawer is ideal for people who must handle important papers while on-the-move. Manufactured from high impact styrene, the Clip-Drawer features a strong steel clip and large, smooth outside writing surface. The drawer slides out to form a compact yet roomy case for carrying invoices, orders and papers of all kinds. The entire Clip-Drawer measures 10" x 14" and weighs only 1½ pounds. Excellent for shipping or stock room use.

CANCELLED MAR 1988

**CLIPBOARD WITH A DRAWER!
DOES 3 JOBS IN 1
Clip/Drawer \$7.95**

7" TU RACKS

Accommodates all 8½" x 11" or larger sheets with ease.

No. TU-76 Rack 7" wide with 6 sections. \$10.00

No. TU-712 Rack 7" wide with 12 sections. 16.50

No. TU-718 Rack 7" wide with 18 sections. 25.00

GATHERING RACKS

Racks are precision made of sturdy, light-weight aluminum alloy. Each section holds 500 sheets at an angle best suited to efficient paper gathering. Even an unskilled worker easily collates 4,500 sheets an hour—maintaining pace without fatigue. Worker sits or stands as preferred. For large assemblies, two or more racks can be used end to end, or side by side for long sheets. Collapses to set aside in minimum of space. Rack is non-skid in use; rubber guards prevent damage to desk or table top.

EVANS EQUIPMENT IS GUARANTEED TO MAKE MANUAL COLLATING FASTER AND MORE ACCURATE THAN ANY OTHER AID ON THE MARKET!

RECEIVING TRAY

The Receiving Tray slips easily in place on the handle of any 7" TU Rack. As sheets are gathered, they are dropped criss-cross into the tray in neat sets, ready for removal and stapling. Tray is sturdy all-aluminum.

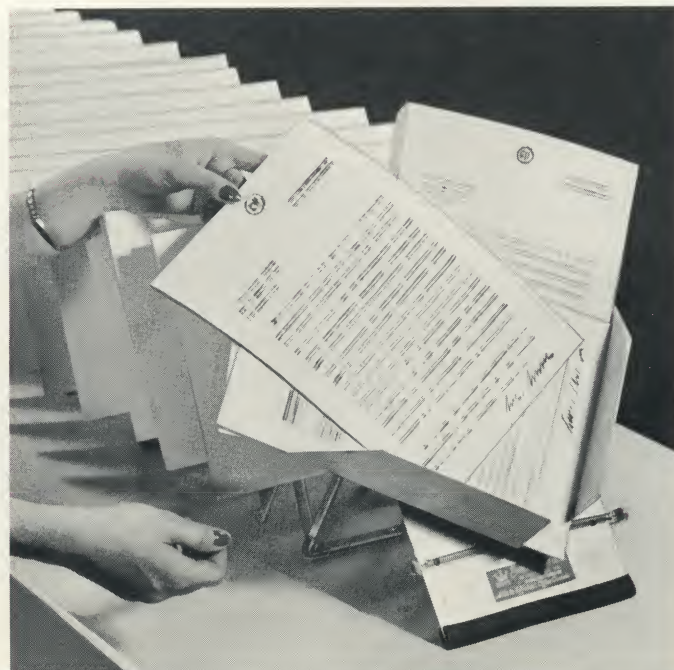

Racks collapse for space economy in storage

RECEIVING TRAY NO. RT-100 \$5.00

(For use only with 7" TU racks listed above.)

A "must" for your Evans Gathering Racks.

4" TU RACKS

No. TU-46	Rack 4" wide with 6 sections.....	\$10.00
No. TU-412	Rack 4" wide with 12 sections.....	16.50
No. TU-418	Rack 4" wide with 18 sections.....	25.00

Evans has a size and style Gathering Rack to suit every collating need. These 4" models (shown above) are ideal for assembling direct mail material, classifying checks, bills etc. Also used to display advertising matter and merchandise. Precision made of sturdy lightweight aluminum, all Evans racks are equipped with rubber guards to prevent damage to desk or table top. Won't skid!

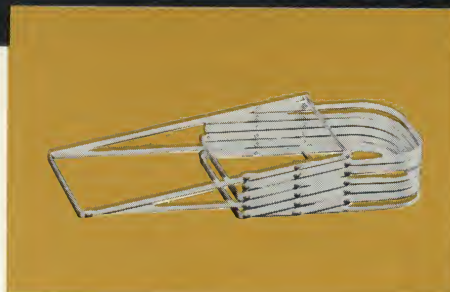

DU RACKS

Some customers prefer the Evans vertical style Gathering Rack shown at the right. Each section holds 500 sheets at an angle most convenient for quick collating. For large assemblies, use two or more racks side by side as pictured. Racks collapse for setting aside, but are non-skid in use. 7" width is used for collating sheets 8½" x 11" or larger. 4" width is ideal for assembling or sorting checks, bills, envelope stuffers etc.

DU RACKS

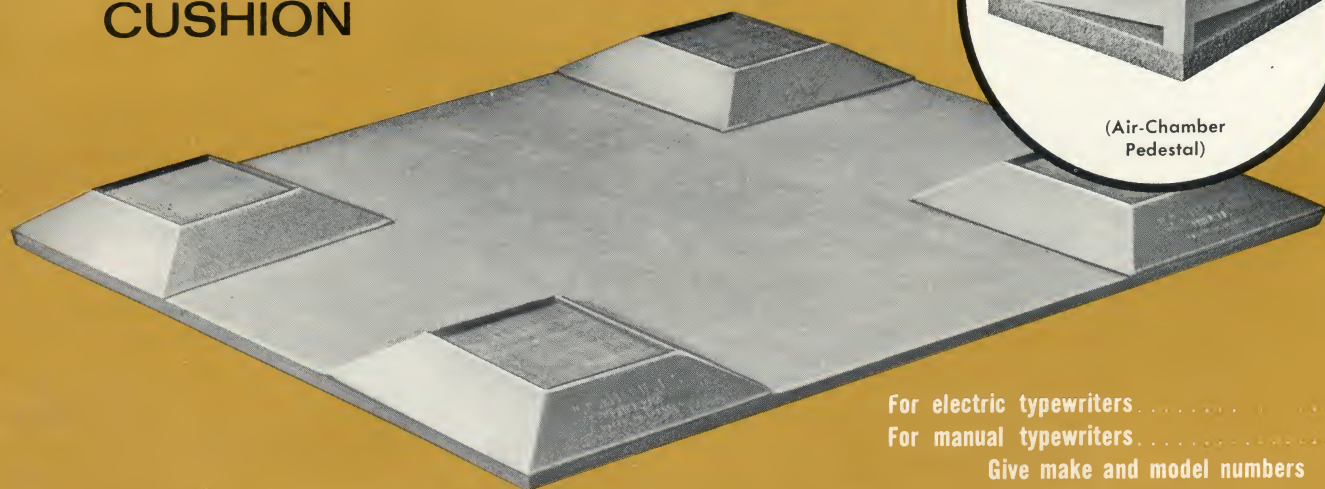

No. DU-76	Rack 7" wide with 6 sections..	\$14.00
No. DU-46	Rack 4" wide with 6 sections..	14.00

All Evans Gathering Racks can be collapsed for setting aside in a minimum of space.

SORBA-SOUND

CUSHION

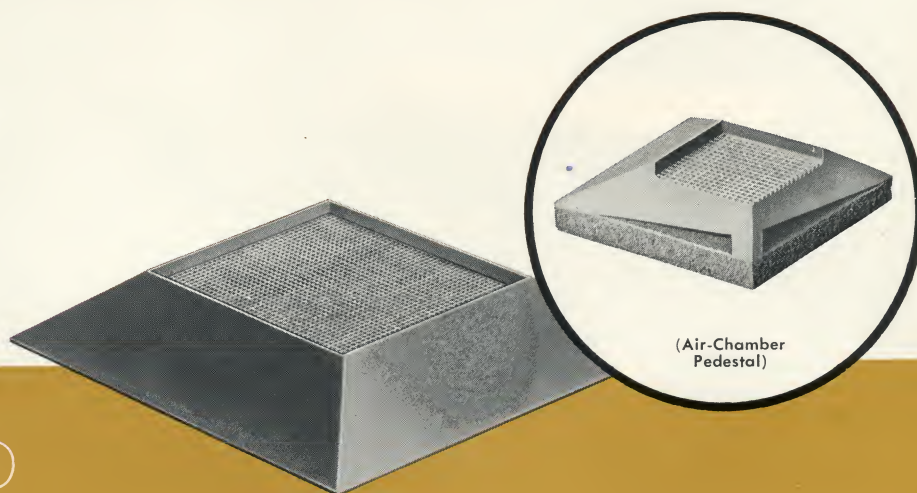

For electric typewriters \$6.00
 For manual typewriters \$4.95
 Give make and model numbers

**FOR TYPEWRITERS
 AND BUSINESS MACHINES**

**PRICES FOR BUSINESS MACHINES
 VARY ACCORDING TO SIZE**

The Sorba-Sound cushion is a new step toward quieter offices. Hard rubber pedestals containing sealed air chambers are on each corner of the cushion. These air chamber pedestals absorb shock, noise and vibration—increasing operator efficiency and machine life. The sponge rubber cushion also prevents creeping or sliding. Available in handsome blue-grey. Sizes available for all typewriters and most business machines.

SORBA-SOUND

PEDESTALS

For use under the feet of heavy floor machines.

These individual Sorba-Sound air chamber pedestals reduce vibration, shock and noise. Manufactured of hard rubber.
